DUBOIS GETS JOB

County Officials Have a Fine Banquet. News of the County Seat.

Doylestown, January 24.

There has been lots of politics, and that of the practical kind in the county seat during the last few days. Of course the judgeship started the ball rolling last week, so it is freely said here. The Boss and Deputy United States District Attorney Swartley had put a net to Swartley wanted to be judge and was making a fight for the appointment but Grundy said: "Nay, nay, I have already promised that appointment and even now it is another's." and then they said things to each other and they were not nice things either. Swartley is a busy and had a number of petitions in circulation to many of which names were signed after Governor Loefer had announced the appointment.

The announcement that is, the public announcement, came to the county seat with the daily papers on Saturday morning that William C. Ryan Esq. had the appointment. There was no delay for on Monday morning his commission arrived and early on Tuesday morning Receiver Shaw administered to him the oath of office. Promptly after that formality had been attended to Judge Ryan resigned his position as District Attorney leaving a vacancy in that office which there was a considerable number of applicants for. The lucky

surprise was the County Commissioners which has been for J. H. Starn, Esq., for When the new Commissioners was on was apparently was to accept it. He was too low, as it of work that had to other reason he said the turnpikes to be he was already His real Congress Well the ubiquitous on the scene confidential talks and the cor- taining districts evidence and it there would be sev- Hendricks,

Preparations for the "Centennial or Old Home Wes 9 to 15 next, are moving al briskly and indications now it will be a grand success, a the county seat and to the co for the celebration is not a l only, but is of interest to tl county.

The Board of County Con ers have decided to get along a county engineer and pay the job. They are obsessed belief that it is cheaper to same amount of goods at rel at wholesale. They are also after the fees received by l Bridge Viewers, evidently that the uniformly high g who have always been ap positions should be satisfie their time if their expenses for them.

While there is nothing but dation for the three recent ments Judge, District Attor County Solicitor, why ea have a brand of County Cor ers who are able to take th views that public office is trust and not a private one use of a few more or less l oils, blotters, pens, etc, is ious a matter as the lefti tracts for unnecessary bridg are of contractors who are but useful.

The Poultry Yard.

You can tell a laying hen as far as you can see her. Her comb is always bright and healthy looking.

February chicks are not apt to molt in the fall and will not be worth anything for egg production in winter.

Turkeys more than any other poultry seem to require fresh air. They will roost in trees during a snow storm and not seem to mind it a bit.

Feeding laying hens with sun ulants of any kind except those nature supplies in good food is a dangerous and costly process in the long run.

Soak stale bread in sweet skim milk, press out the milk as completely as possible, and feed the chicks. Also keep coarse sand before them without it the chicks can not grind their food.

Put some oats in a box that will not leak, wet them thoroughly with warm water, cover them well let them stand one while day then turn them into a box that does leak. Keep putting warm water on them morning and night till sprouts are well started. Spread them out thinly in a dish more, and keep them up till the sprouts are of the required length. Some folks let them grow a foot long. No finer feast for the birds than out sprouts.

Hens will soon be bringing good prices and the high price will tempt
